INFORMATION DISCLOSURE STATEMENT
PURSUANT TO 37 C.F.R. §1.56 AND §§1.97-1.98

Commissioner for Patents
Alexandria, Virginia 22313

Sir:

The following Form 1449 and the copy of documents listed thereon are being filed herewith as a Disclosure Statement. Consideration of the document by the Patent Examiner, and the making it of record in the file of this application, are respectfully requested.

The single item of information contained in this information disclosure statement was cited in a communication from the Japanese patent office in a counterpart foreign application not more than three months prior to the filing of this statement.

The referenced document (corresponding to Utility Model application No. 53-183014 filed December 29, 1978) was cited because the base invention of the corresponding Japanese utility model application was considered obvious in view of the example shown in Fig. 6 and because the document disclosed an example with both sides of a kink making a specified angle between 90 degrees and 180 degrees, say, as a result of a deformation of the lead line cause of an external force.

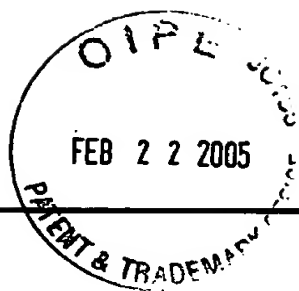

Respectfully submitted,

Keiichi Nishimura
